⇒ PENGUIN PROJECT Due January 27  
 (\*please leave this grade sheet attached to the project!)

We have been working on a penguin research project. Each child has found information on his or her penguin and filled out the first two info sheets. Please help your child **finish** and/or **rehearse** the report. Please make sure your child has used complete sentences. **They need to be able to read the report, show how tall their penguin is on a yard stick and locate where it lives on a map displayed in class.** (Yarn cut to the right length is a great visual for how tall the penguin is!) You can also **add** any interesting fact you find out about your penguin at home! Please feel free to contact me if there are any questions you might have! Reports can be rewritten at your discretion! I am sending home what we have completed in class.

The project:

- Completed Penguin info sheet #1
- Completed Penguin Info sheet #2
- Written report** (fill-in blank style) with the facts you found on your penguin (**or** lined paper)
- Color Page of your penguin, (-or your own drawing with characteristics plainly visible: coloration, crests, etc))

Rubric:
